brown, black

Materials:

nitrile 40%
HPPE 35%
nylon 15%
polyester 7%
spandex / lycra 3%

Product Description:

The OX-ON Cut Supreme 9600 is a comfortable, cut-resistant (Cut Level C) glove for anyone working with sharp objects, such as carpenters, mechanics, glaziers, blacksmiths, or those working in industry, waste disposal or assembly.

The Cut Supreme 9600 is made of polyester and nylon, making it a very durable work glove—even more durable than traditional flex gloves on the market. It also contains elastane for extra flexibility and an exceptional fit. It ensures a safe and accurate grip, thanks to the sandy nitrile coating.

To optimize the grip and durability, reinforcements have been added between the index finger and thumb. The cut-resistant fibers in the glove minimize the risk of cutting injuries.

Provides top quality in terms of materials and design. The Cut Supreme 9600 is the ultimate choice when comfort and dexterity are essential.
