Materials:

nylon 45%
nitrile 40%
spandex / lycra 15%

Total water consumption:

N/A

Product Description:

The OX-ON Junior 10000 is the extremely comfortable, supple and durable glove for the child, who needs a perfectly matched fit for his hand - without compromising the finger feel. The entire palm and fingers have a dipped nitrile foam coating, giving the child a precise grip - whether wet or dry. Hand surface and wrist are made of nylon and elastane, which makes the knitting glove incredibly elastic. The junior glove is perfect for children who are outside in humid weather or who need a pair of gloves while retaining their finger feel. This means that the child can keep the gloves on - instead of taking them off - when the hands are needed. In addition, the OX-ON Junior 10000 glove is OekoTex certified, which is your assurance that the glove does not contain hazardous chemicals and dyes.
