

Art. no.: 12-1034-51-0204

OX-ON Positioning lanyard Comfort 2 m

Features:

- 14 mm kernmantle rope
- Easy to adjust
- Scaffold and snap hook
- High durability.

Product Description:

OX-ON Lanyard Comfort w/Hook 2 m is a manually adjustable work positioning lanyard of 2 metres, which you can e.g. use at mast work. The lanyard is made of extremely durable 14 mm kernmantle rope with properties, which prevent the line from twisting like traditional rope.

The work positioning lanyard is fitted with a snap hook with 18 mm opening and autolock, as well as a strong scaffold hook with 50 mm opening and autolock. This ensures you an extremely easy-to-use work positioning lanyard that is fastened to the D-rings on a work positioning belt.

If you need to be able to use both hands, for example at mast work, it is recommended that you use a work positioning belt to prevent you from losing your balance (fall-preventing equipment).
