N/A

Product Description:

The OX-ON Knitted Basic 13000 is a comfortable knitted glove which can be worn under other gloves, e.g. when working in the food industry, cleaning, agriculture, chemistry, hospital or laboratory.

This loose knitted cotton glove absorbs sweat and moisture and can be used with gloves such as OX-ON's Chemical Series. Because it is made of 50% cotton and 50% polyester, it gives extra comfort and breathability. Also helps keep your hands warm. The Knitted Basic 13000 can also be used as an independent work glove, especially if working in cool and dry environments.
