- MicroZeal palm
- Anti-vibration foam with long-acting effect.

Colours:

grey

Materials:

MicroZeal 50%
polyester 25%
VibraZeal 20%
rubber 5%

Product Description:

The OX-ON Vibration 12000 is the quality glove for anyone working with vibrating tools and machines, such as mechanics, carpenters, contractors, bricklayers or in connection with construction or demolition work.

One of the best anti-vibration gloves on the market, as can be seen in terms of extremely good comfort and quality. The back of the hand is made of a combination of polyester, nylon and elastane, which gives full flexibility. The glove's palm and fingers are coated with MicroZeal for excellent grip. Also features anti-vibration foam as a unique feature with a special long-acting effect to reduce the harmful effects of work. Vibration 12000 counteracts white finger, i.e. prevents poor blood circulation in the fingers. Certified according to EN ISO 10819, ensuring an anti-vibration glove in a class of its own, with Velcro closure on the wrist for easy adjustment.

NB: Only recommended for use with vibrating tools such as plate vibrators, abrasive tools, concrete hammers and hedge trimmers.

Sizes:
