rubber 100%

Product Description:

The OX-ON Food Basic 14000 is the affordable, food approved latex glove for the food industry, fishing, cleaning, laboratory, hospital, agriculture or chemical industries.

This blue work glove is made of latex and has a honeycomb (hexagonal) pattern in the palm. It therefore provides a safe and solid grip in both wet and dry environments. The Food Basic 14000 glove is 30 cm long and provides good protection for the forearm. It also ensures comfort, as it's flocklined and absorbs perspiration. At the same time, this model is anatomically designed for ideal fit and minimum strain on the hands.

Choose the Food Basic 14000 for a functional and food approved glove at an attractive price.
