Total water consumption:

N/A

Product Description:

The OX-ON Winter Supreme 3601 is a very exclusive, extremely warm and comfortable winter glove, e.g. for working with snow clearance or transport and logistics when the weather is harsh, cold and wet. The OX-ON glove is 100% waterproof and windproof and is fitted with a 10 cm cuff that prevents snow from entering the glove. Made of soft and flexible goatskin in the palm and fingertips for unrestricted finger movement. The back of the hand is in gray softshell polyester material and the glove is reinforced with gray neoprene. The result is a well-designed, comfortable glove that can be used by both professionals and private individuals. The integrated 360 degree elastic band at the wrist helps give extra comfort and flexibility. The OX-ON Winter Supreme 3601 is lined with no less than 150 g Thinsulate, which, combined with the Porelle insert, keeps hands completely warm and dry, even in very extreme weather conditions. The Supreme 3601 is ideal for working in cold and wet environments, and can also be used as a ski glove.
