- Smooth and elastic
- Extra warm glove suitable for work in cool environments
- Sublime fit and dexterity
- Touch

Colours:

black

Materials:

nitrile 50%
polyester 25%
acrylic 25%

Product Description:

The OX-ON Winter Comfort 3302 is the extra warm, water-repellent winter glove for working in cold areas that can be wet. The glove is well-insulated and ensures heat-retention with perfect dexterity and flexibility, e.g. for working with scaffolding or as a carpenter/bricklayer. The OX-ON Winter Comfort 3302 is made of polyester and acrylic, which makes this winter glove tight-fitting and comfortable while protecting your hands from heat loss. Knuckle dipped and coated with sandy nitrile on the palm, on the thumb and up to the knuckles. It gives an unsurpassed and safe grip.
