- Extremely durable
- Precise and secure grip
- Oeko-Tex Made in Green

Total CO2 emission:
0.874 Kg CO2 eq.

Total water consumption:
0.216 m3 world eq.

Product Description:

The OX-ON Cut Supreme 9605 is a 100% waterproof and highly cut-resistant (cut D) glove for those who demand the best equipment and work as, for example, a mechanic, glazier, blacksmith, or in industries like waste management, assembly, or general industry. This glove is uniquely double-dipped and equipped with touch functionality. The inner layer makes the glove water-, oil-, and liquid-proof, making the Cut glove perfect for work in wet environments. The outer layer is made of sandy nitrile, providing a precise and secure grip. The Cut Supreme 9605 is crafted from polyester, which makes it extremely durable. It also features reinforcement between the index finger and thumb to protect an area that is particularly vulnerable.

Additionally, the glove contains a high level of elastane, offering greater flexibility and agility compared to similar cut-resistant work gloves on the market. The glove further stands out by incorporating Ultra High Molecular Weight Polyethylene (UHMWPE), delivering an extraordinary cut-resistant effect. With the Cut Supreme 9605, you get the best in safety and comfort. The OX-ON glove is also Oeko-Tex certified, ensuring that it contains no harmful chemicals or dyes.
