TPR 38%  
HPPE 22%  
polyester 16%  
nitrile 12%  
Steel 5%  
fiberglass 5%  
spandex / lycra 2%

### Total water consumption:

0.488 m3 world eq.

### Product Description:

The OX-ON Impact Cut 12001 is an extremely durable and cut-resistant (cut D) work glove with rubber reinforcement on the back of the hand, absorbing shocks and impacts. The glove is a finger-dipped knitted glove with elastane, ensuring a flexible and snug fit. The palm and fingers are coated with durable nitrile with a rough surface, enhancing grip and control. The unique rubber coating on the back of the hand is designed to provide protection without restricting freedom of movement, allowing the glove to be worn comfortably for long periods. The Impact Cut 12001 features a touch function, making it easy to operate digital screens, smartphones, or tablets without removing the gloves.

The extra reinforcement between the thumb and index finger increases the glove's durability.

### Sizes:
