

Art. no.: 2202059

OX-ON Lizard lanyard Supreme

Features:

- Edge-tested
- Energy absorber
- Kernmantle rope
- Auto-lock carabiner
- Large scaffolding hook.

Colours:

green

Total CO2 emission:

N/A

Materials:

Total water consumption:
N/A

Product Description:

OX-ON Lizard Safety Lanyard Supreme is a 2-meter, edge-tested safety line that you can use in connection with e.g. scaffolding work. The line is made of extremely durable 12 mm kernmantle rope with properties that prevent the rope from twisting, like you may experience with traditional rope. The fall arrester gradually reduces energy in the event of a fall, so that stopping is not too abrupt. OX-ON Lizard Safety Lanyard Supreme has a scaffolding hook with a 50 mm opening and auto-lock carabiner with an 18 mm opening. The large scaffolding hook ensures you easy and efficient operation when anchoring. The anchorage point should, if possible, be above head height to reduce the ground clearance. You should note that the ground clearance must be calculated at all times before starting work with fall protection. For further information on the required ground clearance, please refer to the enclosed user manual or contact OX-ON.
