blue

**Total CO2 emission:**

0.166 Kg CO2 eq.

**Materials:**

**Total water consumption:**  
0.027 m3 world eq.

**Product Description:**

OX-ON Soft Foam Plaster Comfort is a hemostatic blue band-aid in cross elastic quality that ensures good movement over the joints. The blue color makes the band-aid easy to spot and is recommended by the Danish Veterinary and Food Administration. The latex-free band-aid is particularly skin-friendly, as it is adhesive-free and therefore does not stick to skin, hair, or wounds. The band-aid is self-adhesive and water resistant so it can be used on dry and wet skin. Does not get stuck on the skin and does not leave "fiber residues" in the wound, and therefore can be applied directly to burns. A unique foam lining makes the band-aid particularly suitable for use as a dressing on toes, legs, arms, and hands. Dimensions: Width: 6 cm Length: 4.5 m
