polyester 50%

### Total water consumption:

N/A

### Product Description:

OX-ON Knitted Comfort 13303 is a long inner glove which is perfect for anyone who does cleaning, chemistry or laboratory work, etc. The extra length means your forearm is also protected. The Comfort 13303 glove is made of 50% cotton and 50% polyester, which absorbs sweat and moisture and allows your hands to breathe freely. The soft and comfortable knit keeps your hands warm and creates an extra good fit. If you already use a glove from OX-ON's Chemical Series, or other gloves without a lining, the Knitted Comfort 13303 is extremely suitable as an inner glove and provides extra comfort. Can also be worn alone when working in cool and dry environments.
