Product Description:

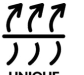

The OX-ON Knitted Comfort 13304 is a tight-knit glove for wear as inner glove in the fishing industry, for cleaning, working with chemicals or laboratory work. This is a high quality glove made of 100% cotton, which absorbs sweat and moisture and allows your hands to breathe freely. The soft and comfortable cotton keeps hands warm and the tight knit gives an extra good fit. If you already use a glove from OX-ON's Chemical Series, or other gloves without a lining, the Knitted Comfort 13304 is especially suitable as an inner glove providing extra comfort. Can also be worn alone when working in cool and dry environments.
