Product Description:

OX-ON Respiratory Kit Chemical Comfort ABEK1P3 RD is a complete half mask kit, which is especially designed for you, who need to meet the strict protection requirements when handling chemicals such as chlorine, hydrochloric acid vapours, acetic acid, hydrochloric acid, ammonia, etc. (You may read more under point 8 in the data sheet for the product, against which you need to protect yourself.) Furthermore, the half mask kit ensures you optimal protection of your airways when it comes to dust/particles.

The one-size half mask is provided with elastic bands so that it can easily and quickly be adapted to your face, and thus you will always have a perfectly fitting mask. Furthermore, the respiratory protective equipment is manufactured in soft silicone, which gives you an exceptional comfort when you wear it.

An entirely unique exhaling valve effectively reduces moisture and heat in the mask. This gives you optimal comfort.

The belonging bayonet ABEK1 P3 RD filters are very easily mounted on the mask when it is time to change the filter set or, for example, if you want to change to other types of OX-ON filters. You can at any time mount another type of OX-ON filter on the

Product Description:

half mask, as the basis mask is identical for all OX-ON half mask filters. This allows you to choose freely when you need to find the right filters for your task.

Furthermore, the filters are dolomite tested, which means that these are filters with a particularly large dust capacity with slowly increasing resistance.

With the OX-ON Chemical Comfort ABEK1P3 RD half mask kit you get a working tool and a safety approved piece of protective equipment that requires minimal maintenance and has a long lifetime - all combined with a modern anatomical design of highest quality.
