Product Description:

OX-ON Plaster Water Repellent Comfort is a water-repellent plaster ideal for treating minor cuts and abrasions. The plaster is designed to protect wounds from dirt and bacteria while allowing the skin to breathe, thanks to the small perforations integrated into the material. These perforations ensure that the wound heals optimally. The material is both flexible and strong, ensuring that the plaster stays securely in place and effectively protects the wound, even during movement. The water-repellent property makes it suitable for daily activities such as hand washing, bathing, and sports. It is recommended to clean the wound thoroughly and ensure that the skin around the wound is dry before applying the plaster. Contents of the set: 10 pcs 72x19 mm, 5 pcs 56x19 mm, 5 pcs 40x10 mm, 5 pcs Ø24 mm.
