Product Description:

OX-ON Bandage Cohesive Comfort is a self-adhesive elastic support bandage, ideal for securing dressings and providing light support for overstrained muscles, tendons, and ligaments. This bandage is particularly suitable for use around finger joints, where its high elasticity ensures a tight and secure fit while allowing free movement. The self-adhesive property means that the bandage sticks to itself without the need for additional tape or clips, making it easy to use and adjust as needed. The flexible and breathable structure makes it comfortable to wear for extended periods, and it can easily be adapted to different parts of the body. OX-ON Bandage Cohesive Comfort is perfect for both everyday situations and as part of your first aid kit. It is designed to provide reliable support and fixation, promoting faster healing and reducing the risk of further injury. Contents of the set: 1 pc 4.5 m x 2.5 cm.
