Colours:

black

Product Description:

The OX-ON TECMEN Welding Helmet is an extremely comfortable welding helmet suitable for the OX-ON Tecmen turbo unit. The helmet is a flip-up model, making it exceptionally easy to switch between welding and grinding tasks. Protection level 4 (not activated). Protection levels 5-9 and 9-13 (activated). Switching time from light to dark in 1/25,000 seconds. The auto-darkening welding cassette offers excellent visibility - 75 x 107 mm ReaLens is the essential component of the welding helmet that provides clear visibility of the workpiece before the arc is struck. It automatically switches to a dark mode upon arc exposure, ensuring optimal eye protection for welders. Experience a clear view of the weld seam throughout the welding process. The ergonomically designed headband has three adjustable straps to fit perfectly to the head. It is easy to adjust the viewing angle and the distance between the welding cassette and the eyes - even while wearing gloves.

Power supply: Solar cells and battery.

Battery life: 2800 hours (2 x CR2450).
