

Art. no.: 23374

OX-ON Half Mask PCX A2P3 R D Comfort

Features:

- Suitable for work with paints, varnishes, and in dusty environments
- Good visibility
- A2P3 filter
- Superb fit
- Extremely low breathing resistance
- Made of environmentally friendly TPE
- Adjustable elastic straps
- Produced in the EU

Colours:

black, orange

Product Description:

The OX-ON Half Mask PCX A2P3 Comfort is an extremely comfortable half mask with excellent visibility, meeting protection requirements for working with paints and varnishes. For example, cellulose thinner, various types of wood preservatives, PCB, and spray paint (Read more under point 8 in the safety data sheet of the product you need protection from). The half mask also ensures optimal respiratory protection against dust and particles.

Additionally, the filters are dolomite-tested, meaning they have exceptionally high dust capacity, with resistance increasing slowly over time. The one-size mask features elastic straps, allowing for quick and easy adjustment to fit your face perfectly.

The respiratory mask is made of TPE (thermoplastic elastomer), ensuring outstanding comfort during use. A unique exhalation valve significantly reduces moisture and heat inside the mask, providing optimal comfort.

If you work with or handle PCB, mold, lead, or other hazardous substances, it is crucial to check the specific guidelines from the labor inspection authorities regarding protective equipment use. Note: The filters on this mask type cannot be replaced.
