

Art. no.: 301.58

OX-ON Coverall Comfort

Features:

- Extremely hard-wearing
- Ergonomic design
- Breathable
- Zipper
- Antistatic.

Colours:

white

Product Description:

OX-ON Coverall Comfort is a popular and very durable protective coverall for you, who for example work with maintenance and repairs, spray paint, insulation, wood, metal and certain chemicals.

Here you get an extra hard-wearing and comfortable coverall in antistatic non-woven polypropylene. The surface is microporous film, which protects you from particles such as asbestos and, to a limited extent, also against spray from chemicals.

Coverall Comfort is an ergonomic coverall with a good fit and close-fitting elastic in hood and at ankles and waist. The model is provided with a zipper, which is protected with a flap for protection of the zipper, taped inside seams and a soft ribbing at the wrists.

OX-ON Coverall Comfort is type 5 and 6-approved, which means:

Type 5: Hazardous Particulate Protection.

The coverall protects the entire body against airborne solid particles.

Type 6: Liquid Splash Protection.

To a limited extent the coverall protects against a light spray of liquid chemicals.

Coverall Comfort is a highly durable and comfortable protective coverall in which you can breathe and move freely. You can use the coverall in many contexts and it is – and that is perhaps why – our absolute top selling protective coverall.
