blue

Product Description:

OX-ON Respiratory Kit Painter Comfort A2/P3 is a complete half mask kit, which is especially designed to comply with the protection requirements at work with paints and varnishes. For example cellulose thinners, various types of wood preservatives, PCB and spray paint. (You may read more under point 8 in the data sheet for the product, against which you need to protect yourself.) Furthermore, the half mask kit ensures you optimal protection of your airways when it comes to dust/particles.

The one-size half mask is provided with elastic bands so that it can easily and quickly be adapted to your face, and thus you will always have a perfectly fitting mask. Furthermore, the respiratory protective equipment is manufactured in soft silicone, which gives you an exceptional comfort when you wear it.

An entirely unique exhaling valve drastically reduces moisture and heat in the mask. This gives you optimal comfort.

Both the belonging threaded A2/P3 filters are very easily mounted on the mask when it is time to change the filter set or, for example, if you want to upgrade to other types of OX-ON filters. You can at any time mount another type of OX-ON filter on the half mask, as the basis mask is identical for all OX-ON half mask filters. This allows you to
