- Easy adjustment
- Dielectric design
- Lightweight .

Colours:

black

Product Description:

OX-ON Earmuffs D1 Comfort are a robust and dielectric passive earmuffs that protect you when you work in moderate noise level environments.

The earmuffs are made in a dielectric plastic design that gives you high protection in an electric environment.

You will also experience a high comfort from the unique dual headband, which reduces the pressure against your head, and with a weight of only 212 grams, it is incredibly light and comfortable to wear.

OX-ON Earmuffs D1 Comfort are also nice to work with in humid environments or on hot days when the ventilated inner band creates a breathable effect and provides good comfort.

As something special, you have the possibility to adjust the headband and place the snap-in ear cushions as needed. The smart 'quick-click' system ensures that your settings will remain locked while you work. The cups are made of impact-resistant ABS material, which makes the earmuffs extra sturdy. The inside consists of a special foam double layer, which feels incredibly soft and gives a close-fitting effect on your ears.

OX-ON Earmuffs D1 Comfort have a attenuation value (SNR value) of 31 dB.

High frequency: 36 dB
