2.261 Kg CO2 eq.

Materials:

Total water consumption:

0.359 m3 world eq.

Product Description:

OX-ON Earmuffs H1 Comfort are for you, who work in a low to moderate noise level environment and who want to attach the earmuffs directly on your safety helmet. The earmuffs are designed to be fixed on a helmet in a 30 mm slot slit and thus fits most common helmet types in the market.

The stainless spring steel helmet bracket gives a pleasant pressure. Therefore, you can easily work with these earmuffs for a longer period of time.

The oval cups are made of impact-resistant ABS material and give you a pleasant fit and comfort for your ears. You will notice a good inner depth, and the soft ear cushions fit closely around your ears.

OX-ON Earmuffs H1 Comfort only weigh 225 grams and therefore feel extremely light and comfortable to wear. The earmuffs has a attenuation value (SNR value) of 28 dB.

High frequency: 30 dB

Medium frequency: 26 dB

Low frequency: 20 dB

With H1 Comfort it is both easy and comfortable to protect your hearing when working in environments with moderate noise levels.
