Product Description:

OX-ON Webbing Sling Comfort 1.2 m is used for anchorage of the fall protection on e.g. load-bearing sections such as beams and rafters.

The sling is made of extremely strong webbing polyester in 26 mm width, and you will find that it is very easy and quick to install. In addition, the sling only takes up very little space, making it very easy to bring along.

The webbing sling has a length of 1.2 metres and a tensile strength of >30kN

Please be aware that an anchorage point at minimum should be capable of withstanding a force of 1200 kg. (12kN)
