Product Description:

The OX-ON Powered Air Kit Comfort is a complete, high-quality turbo unit consisting of:

- Motor unit with comfort belt
- P3 filter
- Pre-filter
- Spark arrester
- Self-adjusting air hose
- Sling
- Battery
- Battery charger
- Air flow meter
- Storage bag

Low weight and ergonomic design makes the unit comfortable to use for extended periods.

With this extremely robust Tecmen motor unit model, the air flow can be adjusted at two levels. Low air flow of 170+ l/minute and high air flow of 210+ l/minute.

A particle filter as well as organic filter can be used with the Tecmen model. One P3 filter is supplied with this set.

Product Description:

Both the battery and filter capacity can be clearly read via LED indicators on the turbo unit display.

The heavy-duty Li-ion battery has an active working capacity of around 15 hours at 170 l/minute and around 9 hours at 210 l/minute. The charging time is approximately 120 minutes.

Self-adjusting, protected air hose with bayonet coupling provides optimal comfort while working.

Category: TH2 and TH3 depending on choice of the headpiece

The OX-ON Powered Air Kit Comfort has three alarm functions if the air flow falls too low: Visual, audible, and vibrating. There is also an alarm (which beeps and vibrates) to indicate low battery level.
