

Art. no.: 91310

OX-ON Recycle Basic 16001

Features:

- Made with recycled polyester
- Oeko-Tex certified
- Sublime fit
- Good fingertip touch sensitivity

Colours:

grey

Total CO2 emission:

0.876 Kg CO2 eq.

Materials:

latex 44%
recycled polyester 28%
polyester 25%
spandex / lycra 3%

Total water consumption:

0.16 m3 world eq.

Product Description:

OX-ON Recycle Basic 16001 is the right glove if you need a flexible and comfortable glove, for example if you work with agriculture, hobbies, gardening, warehousing or assembly. 50% of the glove's knit fabric is made of recycled polyester derived from plastic bottles, and the rest from nylon and elastane. This combination ensures a comfortable and supple fit - whether you use the glove professionally or privately. Externally, the glove is coated with latex foam on the fingers and palm for softness and comfort, making it pleasant to wear for extended periods. The glove is lightweight and with a stable and snug fit, ensuring good finger touch sensitivity at all times. This makes it especially useful for anyone lifting light materials, working in a warehouse or performing minor assembly tasks, for example. The OX-ON Recycle Basic 16001 glove is also Oeko-Tex certified, which guarantees that it does not contain hazardous chemicals and dyes.

Overall, the gloves consist of 28% recycled material.
