- Oeko-Tex certified
- Durable
- Unique breathability

Colours:

grey

Materials:

nitrile 49%
recycled polyester 25%
nylon 23%
spandex / lycra 3%

Product Description:

The OX-ON Recycle Comfort 16300 is the traditional and very well-known Flex glove, where 50% of the glove's knit is made from recycled polyester derived from used plastic bottles. It is an exclusive and durable all-round glove for anyone who needs optimal fingertip touch sensitivity and effective protection - regardless of whether working carpentry, masonry, sanding, auto or assembly tasks, for example. The glove will fit your hand perfectly when worn. The entire palm and fingers have been treated with a sandy nitrile foam coating, giving you a very precise grip when working in dry environments. The material composition of the glove provides full breathability on the palm and wrist, making it supple and comfortable while ensuring a precise grip. The OX-ON Recycle Comfort 16300 is also Oeko-Tex certified, which guarantees that it does not contain hazardous chemicals or dyes.

Overall, the gloves consist of 26% recycled material
