polyester 25%
spandex / lycra 3%

Product Description:

OX-ON Recycle Basic 16003 is the right glove if you need a flexible and comfortable glove, for example if you work with agriculture, hobbies, gardening, warehousing or assembly. 50% of the glove's knit fabric is made of recycled polyester derived from plastic bottles, and the rest from nylon and elastane. This combination ensures a comfortable and supple fit - whether you use the glove professionally or privately. Externally, the glove is coated with latex foam on the fingers and palm for softness and comfort, making it pleasant to wear for extended periods. The glove is lightweight and with a stable and snug fit, ensuring good finger touch sensitivity at all times. This makes it especially useful for anyone lifting light materials, working in a warehouse or performing minor assembly tasks, for example. The OX-ON Recycle Basic 16003 glove is also "Oeko-Tex certified", which is your guarantee that it does not contain hazardous chemicals and dyes.

Overall, the gloves consist of 28% recycled material.
