Product Description:

OX-ON Recycle Comfort 16302 is the traditional and very well-known Flex glove, shown here in recycled polyester. An exclusive and durable all-round glove for when you need optimum finger sensitivity and effective protection, whether you are working with joinery, masonry, grinding, auto or assembly tasks.

Fits the hand perfectly and comes with a sandy nitrile foam coating along the entire palm and fingers, which results in an extremely accurate grip when working in dry environments.

The glove is made of recycled polyester, nylon and elastane and is therefore fully breathable on the palm and wrist, which also makes this knit glove smooth and comfortable and with a safe grip.

This model is also Oeko-Tex certified, guaranteeing that it does not contain hazardous chemicals or dyes.

Overall, the gloves consist of 25% recycled material.
