Product Description:

The OX-ON Recycle Supreme 16603 is an exclusive, extremely comfortable, smooth, durable and flexible glove with perfect finger sensitivity and optimum grip. Whether a plumber, electrician, scaffolder or warehouse worker, the Flexible Recycle 16603 is the uncompromising choice for a working glove for both wet and dry environments. And 50% of the glove's knit fabric is made of recycled polyester derived from used plastic bottles. The glove's knit fabric is made of recycled polyester, nylon and elastane, which makes it incredibly elastic and provides a perfect fit for your hand. The entire palm and fingers have a dipped nitrile foam coating, which in combination with the dots on the palm, ensures a precise grip. The glove is therefore excellent for sanding or assembly work. The OX-ON Recycle Supreme 16603 is also Oeko-Tex certified, which is your guarantee that it does not contain hazardous chemicals or dyes.

Overall, the gloves consist of 24% recycled material.
