Materials:

latex 40%
acrylic 36%
polyester 24%

Product Description:

OX-ON Winter Comfort 3311 is a 100% waterproof and extra warm glove for those who work with, for example, masonry and construction work, scaffolding, horticulture, gardening and renovation. The glove is well insulated with an excellent fit, finger feel and ensures that you can stay warm, while giving you a sublime grip - regardless of whether it is wet or dry. These are therefore the perfect choice for the most demanding tasks. With OX-ON Winter Comfort 3311 you get an extremely soft and comfortable glove that has a double latex coating: The inner coating, which is blue, keeps your hands dry. The outer coating, which is grey, provides an extraordinarily good grip. The knit is made of acryl and polyester so that the glove is warm and comfortable to wear.
