Total water consumption:

0.19 m3 world eq.

Product Description:

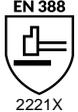

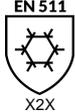

OX-ON Recycle Winter Comfort 16304 is a flexible and comfortable all-round winter glove for those who work in cold environments. 20% of the glove's knit fabric is made of recycled polyester derived from used plastic bottles. It gives a warm and soft feeling to your hands while protecting the environment. The glove's exterior is coated in latex foam on the fingers and palm. Together with the soft lining, it gives you flexible and comfortable comfort, so the glove is nice to wear even for a long time. The glove has a stable and snug fit on your hand, ensuring good finger touch sensitivity at all times. This makes it especially useful for those who work outside, in the garage, in the workshop or in the hobby room. The OX-ON Recycle Winter Comfort 16304 glove is also "Oeko-Tex certified", which guarantees that the glove does not contain hazardous chemicals and dyes.
