

Art. no.: 92470

OX-ON Flexible Basic 1011

Features:

- ESD certified
- Silicone-free
- Touchscreen function

Colours:

grey

Materials:

nylon 84%
PU 10%
Carbon 6%

Product Description:

The OX-ON Flexible Basic 1011 is the glove for anyone who needs a good grip when working with light lifting, simple assembly tasks and in warehouses. Whether using Flexible Basic 1011 professionally or privately, you'll get an economically attractive glove that does not compromise on functionality. The glove is made with a thin and durable PU coating on the fingertips for extra durability, and the thin coating gives you very nice finger sensitivity. You can use your mobile phone, tablet and other displays without taking off the glove, as the glove has a touch function. At the same time, the glove's knit is made of nylon and carbon fiber, which helps to eliminate the risk of static electricity (ESD), ensuring a comfortable fit for anyone working with precision tasks such as carpenters or mechanics. The Flexible Basic 1011 is silicone-free.
