polyester 10%
spandex / lycra 10%
fiberglass 5%

Product Description:

The OX-ON Cut Basic 9001 is an affordable and cut-resistant (Cut B) glove for carpenters, mechanics or shop workers, or anyone working in industry, waste removal and fitting. The Cut glove is made of polyester and elastane, which makes it durable and super easy to wear. The Cut Basic 9001 also has a PU coating, providing excellent grip. The work glove has cut-resistant fibers and is therefore particularly suitable if you need to protect both hands and fingers to a greater degree than traditional flex gloves. This provides a more durable work glove than the traditional flex gloves on the market.
