0.616 Kg CO2 eq.

Materials:

Metal 62%
polyester 22%
PU 14%
spandex / lycra 2%

Total water consumption:

0.116 m3 world eq.

Product Description:

The OX-ON Cut Comfort 9301 is an affordable and cut-resistant (cut C) glove for carpenters, mechanics, glaziers, or blacksmiths, or anyone working in industry, garbage collection, and fitting. The Cut glove is a finger-reinforced, knitted glove in polyester and elastane, which makes it extremely durable and flexible. Cut Comfort 9301 also has a PU coating, which gives you a good grip. The glove has cut-resistant fibers and is therefore particularly suitable for working with sharp objects such as glass, metal plates, and cutting tools, when protection is needed for hands and fingers. This provides a more durable work glove than the traditional flex gloves on the market.
