- Particularly well-suited to work with sharp objects
- Affordable

Colours:

grey

Materials:

HPPE 40%
polyester 28%
PU 14%
spandex / lycra 10%
Stainless Steel 8%

Product Description:

OX-ON Cut Basic 9002 is an affordable, cut-resistant (cut D) glove for those of you working as, e.g., carpenters, mechanics, glaziers, blacksmiths or in the industry, renovation and assembly. The Cut Basic 9002 is made of polyester, which is durable, and elastane, which makes it supple to wear. The Cut Basic 9002 also has a PU coating, providing excellent grip. The glove has cut-resistant fibers and is therefore particularly suitable for working with sharp objects such as glass, metal plates, and cutting tools, when protection is needed for hands and fingers. This provides a more durable work glove than the traditional flex gloves on the market.

Sizes:

STR.	ART. NO.	EAN
