Product Description:

OX-ON V8 Discovery Automatic Harness Supreme is a lightweight 3-point harness that you can use for the vast majority of demanding tasks, such as industrial climbing on masts and wind turbines. The harness is extremely comfortable with extra padding on the thigh straps and the shoulders. It is also equipped with an ergonomic back support belt for positioning. The unique design means that you can use the harness as a seat harness in a very distinct way. The harness has user-friendly click buckles, which make it easy for you to put/take the harness on and off. The many adjustment options give you a unique harness that affords you virtually unlimited mobility and flexibility. The harness is made of strong and well-tested, 2-color and hi-viz webbing tape. The OX-ON harness is equipped with strong aluminum D-rings on the back and on the chest for anchoring. Straps on the belt enable you to attach tools, for example. You also have an aluminum D ring on each side of the ergonomic support belt, which you can use to attach a support line. The OX-ON V8 Discovery Automatic Harness Supreme is the perfect harness for service technicians and the professional users. The body harness is tested for 150 kg.
