Features:

- Extremely impact-resistant
- Scratch-resistant
- Flexible and soft temples
- Reduces reflection
- 99.9% UV protection
- Sunlight filter.

Colours:

mirror lenses, red

Product Description:

OX-ON Eyewear Speed Plus Comfort Mirror with mirrored lenses are the exclusive and safety-approved glasses for the person who needs to significantly reduce incoming light connected to their work. The lenses with mirrored coating are made of extremely impact-resistant and scratch-resistant polycarbonate, and the mirror function reflects a large amount of light, so the glasses are ideal for use in bright sunlight, where there are reflections from snow and ice, as well as when driving. The lenses also provide 99.9% UV protection. The effect of the safety glasses' mirrored coating is noticeable, and your eyes will feel more relaxed and less strained than if you were wearing tinted lenses without the mirror function. The OX-ON glasses are fitted with anti-slip rubber on the flexible temple tips, and a non-slip nose bridge ensures extremely high comfort. The lenses have optical class 1 certification, meaning the glasses can be for permanent use.
